Ho Chi Minh City University of Industry (HUI) in Ho Chi Minh City is one of the biggest technical and vocational education providers in Vietnam. It serves 120,000 students with a variety of programs and disciplines at multiple campuses.

SIAST has been collaborating with HUI since 2000. HUI has been delivering the SIAST Business Administration diploma program since 2006. This Friday, 133 students will receive a Business Administration diploma; this brings the total SIAST graduates numbers at HUI to 417. Most SIAST graduates from HUI work with international

businesses in Vietnam. However, since 2008, more than 15 SIAST graduates from HUI have continued their studies at the University of Regina.

SIAST is Saskatchewan's primary public institution for post-secondary technical education and skills training, recognized nationally and internationally for its expertise and innovation. More than 15,000 students were enrolled in SIAST programs in the most recent academic year; additionally, the organization drew almost 25,000 individual course registrations. Through program and course registrations, SIAST served almost 26,000 distinct students with programs that touch every sector of the economy. SIAST operates campuses in Moose Jaw, Prince Albert, Regina and Saskatoon, and provides a number of courses and programs through distance education.
